Chapter 4
"After a Chill"

That's right.
It was me controlling you.

ガーン
...Sure, I did feel relieved.

After that, I don't think I could take another step.
It must have been fun, tormenting a girl with no opposition.
ヒュ
ウ
Has your sadism been satisfied now?
ウ
ウ
If you won't kill me, then I'll do it myself.

Well.
Then please, kill me right away.

You'll find out soon.

Amazing.

With this much prepar-ation,
just what are you planning -
What's amazing?
That you went and took me to a hotel.

ドサ
...Do you perhaps
have a taste for that kind of thing?
Go take a shower.
...
Just do it.

...Understood.
I suppose there's no point in resisting.
grip
I'll take the shower, then.

But, you know...
fwip
I don't think it would be very enjoyable to do such a thing with a girl like me.
I've never even had a kiss.

...
Even so,

If you controlled my heart as well,
then just maybe,
it might be happy in a way.

Excuse me.

Sorry
I took

Alright.

Um...

What is it?
ピッ

Food.
...
Eat up.

whew
That was delicious.
Um,
why are you doing this?
Shouldn't you just kill me quickly?

Is there some point to all this?
...
Um?
...
You feel like you're living, don't you?
A hot shower for your exhausted body,
tasty food for your empty stomach.
You must be feeling a sense of satis-faction you can't deny.

You don't feel opposed to dying because
you don't know the joys of living.
So I'm going to be teaching you life's joys.
It didn't please me.
This target who wanted to die
To just push her on the back.
ultimately saving her, didn't please me.
That's why...
I'll put it another way.
I'm going to take away every one of your "positives" to dying.

And then,
once you've come to wish for life, I'll kill you.
That's my method.
... I understand your objective.
And how you can't stomach me.
But you can't be getting fussy about this.
Please... kill me quickly.
You don't have... time...
Ah...

She looks very comfortable like this.
She fell asleep.
...She must have been exhausted.
...I'll carry on in this way,
teaching her the joys of living one by one.
her fear of death should increase.
fwmmp
Every time she learns a reason to live and loses a positive to dying,

Imagining her face twisted in fear,
I found I was grinning to myself.
